SCHOOL SECURITY OPERATIONS

Maart Security Solutions recently conducted a comprehensive security operation at a local school, providing enhanced protection for students, staff, visitors, and school property.

The operation focused on maintaining a safe and controlled school environment through proactive security measures, including student screening and searches, the identification and confiscation of prohibited items, and continuous security monitoring throughout the premises

**PROTECTING STUDENTS. SUPPORTING
STAFF. SECURING THE SCHOOL.**

KEY OPERATIONS CONDUCTED

- Student Screening & Searches — Security personnel conducted controlled searches in accordance with the school's security requirements to identify prohibited items.
- Prohibited Item Detection — Potentially dangerous and unlawful items, including weapons and suspected drugs, were identified and confiscated during the operation.
- School Perimeter Protection — Officers maintained a visible security presence around key access points and areas of the school.
- Student & Staff Protection — The team worked to create a secure environment where students and staff could carry out their daily activities with greater peace of mind.
- Access Control — Entry and movement around designated areas were monitored to help prevent unauthorised access.
- Incident Prevention — The operation took a proactive approach to identifying potential security risks before they could escalate.
- Ongoing Security Presence — Officers remained deployed throughout the operation to monitor activity and respond to security concerns.

FRED NORMAN SECONDARY SCHOOL BASKETBALL COURT OPENING
